

Southern WV

Performance Evaluation Program

42nd Annual Sale

March 22, 2024 • 6 PM

Ripley, WV

Jackson County Regional Livestock Market — 3907 Cedar Lakes Dr.

www.southernwvbulltest.com

Fellow Cattlemen,

On behalf of the participating consignors, I am pleased to invite you to the 42nd Annual Southern Bull Test Sale. We had over 80 head of both bulls and heifers on test this year and only the very best are represented in this catalog. There are cattle to fit a variety of needs and the quality is excellent. If you would like to view any of the cattle prior to the sale, both bulls and heifers will be available for viewing at the test station until sale day.

It's no secret we are in unprecedented times in the beef industry. Prices are as high or higher than they have ever been! We are truly seeing history be made, and although that is incredibly exciting, the reality is that input costs are also at all-time highs. This is an incredible challenge, and it's not lost on me that producers must be diligent about where to invest money; however, one of the best places to do that is in the right genetics. USDA research of cow/calf producers showed that one of the few areas that low-cost/high-profit producers spend more money than their high-cost counterparts is on genetics. Another area is on their animal health program. At Southern, you get the opportunity to invest in both at the same time.

In conclusion, I would like to thank you for your continued interest in and support of the Southern Bull Test program. Please join us and take advantage of the opportunity to invest in your future and see how our consignors have continued to improve the quality and value of their genetics. If you have any questions, please do not hesitate to call. See you March 22nd!

Respectfully,

Kevin Shaffer
SBT Coordinator

42nd Annual Southern WV Performance Bull and Heifer Sale

March 22nd, 2024

Ripley, WV

3907 Cedar Lakes Rd—1 mile off I-77 Exit 132

Selling 50 Bulls and 50 Yearling Heifers

Sale Time: 6:00 PM *(Bulls sell first immediately followed by heifers)*

Auctioneer: *Daniel Mitchell*

Sale Management: *Jackson County Regional Livestock Market*

Veterinarian: *Dr. Tommy Kirkpatrick, DVM*

Farm Owner/Manager: *Jack Crank* (304) 675-2776

Farm Crew: *Toby Leport and Toby Leport Jr.*

Lodging: *Holiday Inn, Ripley, WV* (304) 372-4444
 Super 8, Ripley, WV (740) 372-8880

Sale Day Phones: *JCRLM Office* (304) 373-1269
 Roger Mitchell (740) 260-4289
 Daniel Mitchell (740) 260-4259

42nd Annual Southern WV Performance Bull and Heifer Sale

Terms and Conditions

Sale Terms: *Terms of the sale are cash. Personal checks are accepted.* Each lot will be sold to the highest bidder. The auctioneer will settle any dispute as to bids. Announcements from the auction block will take precedence over any printed materials. Risk of injury and/or loss passes to the buyer as soon as each lot is sold.

Health: All bulls and heifers selling have tested negative PI-BVD and are eligible for interstate shipment as required by applicable state and federal regulations.

Genetic Defects: Genetic mutations are a natural component of every animal's genome; however, undesirable genetic mutations have been identified in the breeds of cattle selling. To protect buyers, every animal in this sale identified as a potential carrier (prior to enrollment) of a known genetic defect has been tested free and is guaranteed by the breeder.

Guarantee: All bulls are guaranteed by the seller if properly managed. Bulls will be considered breeders should they settle 1/3 of the healthy cows they are exposed to. Buyers must notify the seller of non-breeders within six months of sale date. Non-breeders in healthy condition (body weight \geq sale weight) may be returned to the seller at the buyer's expense. As full settlement and

satisfaction of all claims, the seller may immediately refund the full purchase price or attempt to prove the bull a breeder for a period not to exceed six months. If the bull is not proven a breeder within the specified time period, the seller will refund the full purchase price. Alternate settlement procedures agreeable to both the buyer and seller may also be used.

Registration: Certificates of registry will be transferred to the buyer at no cost.

Retained Interest Sales: Sellers may retain a revenue sharing semen interest in some bulls selling. The buyer receives full possession and full salvage value. Semen collections will occur at the seller's expense and at the buyer's convenience. Announcements will be made prior to sale.

Miscellaneous: The above terms and conditions of sale shall constitute a contract between the buyer and seller and are equally binding upon both parties. All claims should be directed between the buyer and seller.

Liability: All persons who attend this sale do so at their own risk. Neither the program sponsors, sale manager, host farm, nor any other person connected with the management of this sale or the Southern Bull Test program, assumes any liability, legal or otherwise.

General Information

Condition: Bulls were fed a moderate energy diet; however, rate of gain exceeded dietary expectations. Average back fat thickness was 0.28, 0.18 and 0.20 inches for Angus, Simmental and SimAngus bulls, respectively. The bulls are sound and ready to work.

Ration: Bulls were fed ad libitum a total mixed ration. The diet consisted of 50% Corn Silage, 25 % Grass Silage, 10% High Moisture Shelled Corn, 15% Supplement (Soybean Meal, Dried Distillers Grains, and Ground Lime), and included a commercial vitamin and mineral mix containing selenium. Rumensin[®] was added at the labeled dosage rate.

Bull Sale Order: All bulls have met and/or exceeded minimum criteria for ADG, SC, YW, IMF, REA, overall muscle expression, structural correctness, and have passed a comprehensive breeding soundness exam. Sale order was determined using an index of economically relevant traits.

$$I = [(ADG \text{ Ratio} + 0.5(YW \text{ Ratio}) + 0.5(SC \text{ Ratio}))/2] + 2[(\# \text{ Weaned}/AOD) + (\# \text{ Yearling}/AOD)]$$

Although the index strives to identify superior bulls, sale order should not be used as an indicator of overall quality or quality rank.

42nd Annual Southern WV Performance Bull and Heifer Sale

“The Program”

Since its inception, the Southern WV Bull and Heifer Evaluation Program has been developed with the principal goal of providing profit generating genetics for commercial cattlemen. Current members of the advisory committee are:

Chairman: Dr. Kevin Shaffer, *WVU Extension Livestock Specialist*

Jack Crank, *Station Owner/Manager*

Brian Sparks, *Fayette/Nicholas County Extension Agent*

Ed Smolder, *Jackson County Extension Agent Ret.*

Jim Poling, *Angus Breeder*

David Richmond, *Raleigh/Summers Co. Extension Agent*

Ben Goff, *Jackson County Extension Agent*

JJ Barrett, *Wood County Extension Agent*

Chuck Lipscomb, *Angus Breeder*

Mida Peterson, *Angus Breeder*

Evan Wilson, *Mason County Extension Agent*

Special thanks is given to the following individuals for their significant contributions to the program!!!

Yauger’s Farm Supply
Toby Leport

Kirkpatrick Animal Hospital
Toby Leport Jr.

Springwood Livestock Management Services
Jack Crank

Additional thanks is given to our sponsors for making the program available!!!

		15			<i>Parent EPDs</i>						
		CED	CEM	BW	WW	MM	YW	SC	MARB	REA	
Sire		1									
Dam											

- EPD/ACC:** EPDs and accuracies are presented for the individual, sire, and dam and are current as of 2/26/24. Visit www.angus.org, www.hereford.org or www.simmental.org for updated EPDs.
- Birth Weight and Ratio:** Actual birth weight reported by consignor. The ratio is a comparison of the birth weight of the calf relative to the other calves in the herd in which he was born. Ratios >100 indicate an above average birth weight in the herd of origin.
- Adjusted Weaning Weight and Ratio:** Calf weaning weight adjusted to 205 days of age. Adjusted WW is easily influenced by management and is of little value by itself; however, WW Ratio is a useful indicator of pre-weaning performance relative to herd mates. Weaning Ratio is calculated within herd of origin, and the average is 100.
- Adjusted Yearling Weight and Ratio:** Body weight adjusted to 365 days of age. Adjusted YW represents both pre and post-weaning gain. Adjusted YWs and ratios are calculated within herd.

42nd Annual Southern WV Performance Bull and Heifer Sale

- 5. Initial/Final Weight:** Initial/Final weights are the average of two weights taken on consecutive days at the beginning and end of the feeding period. By taking two weights, measurement error due to gut fill is reduced.
- 6. ADG and Ratio:** Average daily gain during the feeding period. ADG Ratio indicates the growth rate of a bull compared to bulls of the same breed.
- 7. Weight per Day of Age:** Final weight divided by days of age. WDA is easily influenced by pre-weaning management and is of limited value except when comparing bulls from the same herd.
- 8. Frame:** Frame score is an indicator of logical slaughter weights of feedlot cattle and mature size of breeding females. Based upon an age adjusted height measurement, frame scores range from 3-7 with 3 being very small and 7 being very large. Minimum heights for bulls and logical slaughter weights for steer progeny are shown below.

Frame Score	3	4	5	6	7
Hip Height (in.)	45	47	49	51	53
Logical Steer Harvest Weight	951-1050	1051-1150	1151-1250	1251-1350	1351+

- 9. Scrotal Circumference:** Expressed in centimeters, SC is adjusted to 365 days of age and is positively related to fertility.
- 10. Muscle Score:** All bulls were evaluated by a team of three individuals and scored using the USDA Feeder Cattle Grade Standards. All bulls selling would be classified as USDA #1 muscle; however, bulls scoring higher in the percentile range would be expected to transmit greater muscle expression to their progeny.

- 11. Ribeye Area and Ratio:** Expressed in square inches and adjusted to 365 days of age. Ratios are calculated within herd.
- 12. Ribeye Area per Hundred Weight:** Square inches of ribeye area per hundred pounds of live weight.

- 13. FT:** An adjusted yearling back fat measurement expressed in tenths of an inch.
- 14. IMF and Ratio:** Adjusted yearling intramuscular fat measured by ultrasound, expressed as a percentage, and used an indicator of USDA marbling score. Because testosterone can impact the expression of IMF, steers may express marbling scores up to one degree higher than genetically equivalent bulls. Ratios are calculated within herd.

IMF (%)	Degree of Marbling		Quality Grade
2.3 – 3.0	Slight	0 - 40	Select -
3.1 – 3.9	Slight	50 - 90	Select +
4.0 – 5.7	Small	0 - 90	Choice -
5.8 – 7.6	Modest	0 - 90	Avg. Choice
7.7 – 9.7	Moderate	0 - 90	Choice +
9.9 – 12.1	Slightly Abundant	0 - 90	Prime -
12.2 +	Moderately Abundant	0 - 90	Avg. Prime

- 15. Dam's Record:**
 AOD—Dam's age when calf was born
 WWR—Number of calves weaned and average weaning ratio
 YWR—Number of calves with yearling records and average yearling ratio
- 16. MGT:** Pre-weaning management where NC = No Creep and C = Creep.
- 17. Cont:** Number of contemporaries (calves) in the group in which the bull or heifer was weaned. Larger contemporary groups allow for better comparisons.
- 18. Pedigree Information:** A three generation pedigree.

Bull Test

HEIFER INDEX

For sale order purposes, heifers were ranked by calculating an index utilizing each heifer's individual performance and current EPDs. With respect to EPDs, scores are calculated based upon the within breed EPD percentile rank for five traits with a maximum potential score of 60 points. Another 40 points are available based upon individual performance. Therefore, the maximum score of 100 would identify a heifer with the most genetic potential and a score of 50 would be considered average for the breed.

Because each producer has their own breeding objectives and priorities for selection, the index is broken down into three basic parts:

Performance EPDs—Cumulative EPD ranking for Direct Calving Ease, Weaning Weight, Milk, and Yearling Weight. Maximum = 40.

Carcass EPDs—Cumulative for \$Beef based on ultrasound measurements. Maximum = 20.

Individual Performance—Cumulative ranking based on adjusted weaning and yearling ratios, muscle score, and REA/CWT. Maximum = 40.

Since EPDs are not available for commercial heifers, the maximum potential score is 60 points and is based upon individual adjusted weaning, yearling, ribeye area, and intramuscular fat ratios, muscle score, and REA/CWT.

2024 INDEX SCORING

EPD Percentile Rank	Muscle Score	WWR/YWR	REA/CWT	Points
0 – 10	1.4	≥ 110	≥ 1.21	10
11 – 30	1.3	105 – 109	1.15 – 1.20	8
31 – 50	1.2	100 – 104	1.10 – 1.14	6
51 – 70	1.1	95 – 99	1.05 – 1.09	4
71 – 85	1.0	90 – 94	1.00 – 1.04	2
