

*Southern WV*

# Performance Evaluation Program

43<sup>rd</sup> Annual Sale

**March 21, 2025 • 6PM**

**Ripley, WV**

*Jackson County Regional Livestock Market — 3907 Cedar Lakes Dr.*

**[www.southernwvbulltest.com](http://www.southernwvbulltest.com)**

Fellow Cattlemen,

On behalf of the participating consignors, I am pleased to invite you to the 43<sup>rd</sup> Annual Southern Bull Test Sale. We had over 200 head of both bulls and heifers on test this year and only the best are represented in this catalog. There are cattle to fit a variety of needs, and the quality is excellent. If you want to view any cattle before the sale, both bulls and heifers will be available at the test station until sale day.

It is no secret we are in unprecedented times in the beef industry. Prices are as high or higher than they have ever been! We are truly seeing history be made, and although that is incredibly exciting, the reality is that input costs are also at all-time highs. This is an incredible challenge, and it is important that producers must be diligent about where to invest money; however, one of the best places to do that is in the right genetics. USDA research of cow/calf producers showed that one of the few areas that low-cost/high-profit producers spend more money than their high-cost counterparts is on genetics. Another area is on their animal health program. At Southern, you get the opportunity to invest in both at the same time.

In conclusion, I would like to thank you for your continued interest in and support of the Southern Bull Test program. Please join us and take advantage of the opportunity to invest in your future and see how our consignors have continued to improve the quality and value of their genetics. If you have any questions, please call. See you March 21<sup>st</sup>! If you cannot make it to the sale this year, please contact the Jackson County Regional Livestock Market for online bidding 24 hours prior to sale or leave a bid with one of the representatives.

Respectfully,

Brian Sparks and Evan Wilson  
SBT Coordinators

# **43<sup>rd</sup> Annual Southern WV Performance Bull and Heifer Sale**

**March 21<sup>st</sup> 2025**

**Ripley, WV**

*3907 Cedar Lakes Rd—1 mile off I-77 Exit 132*

## **Selling 50 Bulls and 60 Yearling Heifers**

**Sale Time: 6:00 PM**     *(Bulls sell first immediately followed by heifers)*

**Auctioneer:**                     *Daniel Mitchell*

**Sale Management:**             *Jackson County Regional Livestock Market*

**Veterinarian:**                   *Dr. Tommy Kirkpatrick, DVM*

**Farm Owner/Manager:**         *Jack Crank*                             (304) 675-2776

**Farm Crew:**                         *Toby Leport and Toby Leport Jr.*

**Lodging:**                             *Holiday Inn, Ripley, WV*             (304) 372-4444  
   *Super 8, Ripley, WV*                     (740) 372-8880

**Sale Day Phones:**

*JCRLM Office*                             (304) 373-1269  
   *Roger Mitchell*                             (740) 260-4289

**Online Bidding:**             Go to [Lmauctions.com](http://Lmauctions.com) look under Jackson County  
   Regional Livestock Market and Submit an application to register  
   to bid 24 hours prior to sale

# 43<sup>rd</sup> Annual Southern WV Performance Bull and Heifer Sale

---

## Terms and Conditions

**Sale Terms:** *Terms of the sale are cash. Personal checks are accepted.* Each lot will be sold to the highest bidder. The auctioneer will settle any dispute as to bids. Announcements from the auction block will take precedence over any printed materials. Risk of injury and/or loss passes to the buyer as soon as each lot is sold.

**Health:** All bulls and heifers selling have tested negative PI-BVD and are eligible for interstate shipment as required by applicable state and federal regulations.

**Genetic Defects:** Genetic mutations are a natural component of every animal's genome; however, undesirable genetic mutations have been identified in the breeds of cattle selling. To protect buyers, every animal in this sale identified as a potential carrier (prior to enrollment) of a known genetic defect has been tested free and is guaranteed by the breeder.

**Guarantee:** All bulls are guaranteed by the seller if properly managed. Bulls will be considered breeders should they settle 1/3 of the healthy cows they are exposed to. Buyers must notify the seller of non-breeders within six months of sale date. Non-breeders in healthy condition (body weight  $\geq$  sale weight) may be returned to the seller at the buyer's expense. As full settlement and

satisfaction of all claims, the seller may immediately refund the full purchase price or attempt to prove the bull a breeder for a period not to exceed six months. If the bull is not proven a breeder within the specified time period, the seller will refund the full purchase price. Alternate settlement procedures agreeable to both the buyer and seller may also be used.

**Registration:** Certificates of registry will be transferred to the buyer at no cost.

**Retained Interest Sales:** Sellers may retain a revenue sharing semen interest in some bulls selling. The buyer receives full possession and full salvage value. Semen collections will occur at the seller's expense and at the buyer's convenience. Announcements will be made prior to sale.

**Miscellaneous:** The above terms and conditions of sale shall constitute a contract between the buyer and seller and are equally binding upon both parties. All claims should be directed between the buyer and seller.

**Liability:** All persons who attend this sale do so at their own risk. Neither the program sponsors, sale manager, host farm, nor any other person connected with the management of this sale or the Southern Bull Test program, assumes any liability, legal or otherwise.

## General Information

**Condition:** Bulls were fed a moderate energy diet; however, rate of gain exceeded dietary expectations. Average back fat thickness was 0.28, 0.18 and 0.20 inches for Angus, Simmental and SimAngus bulls, respectively. The bulls are sound and ready to work.

**Ration:** Bulls were fed ad libitum a total mixed ration. The diet consisted of 50% Corn Silage, 25% Grass Silage, 10% High Moisture Shelled Corn, 15% Supplement (Soybean Meal, Dried Distillers Grains, and Ground Lime), and included a commercial vitamin and mineral mix containing selenium. Rumensin<sup>®</sup> was added at the labeled dosage rate.

**Bull Sale Order:** All bulls have met and/or exceeded minimum criteria for ADG, SC, YW, IMF, REA, overall muscle expression, structural correctness, and have passed a comprehensive breeding soundness exam. Sale order was determined using an index of economically relevant traits.

$$I = [(ADG \text{ Ratio} + 0.5(YW \text{ Ratio}) + 0.5(SC \text{ Ratio}))/2] + 2[(\# \text{ Weaned}/AOD) + (\# \text{ Yearling}/AOD)]$$

Although the index strives to identify superior bulls, sale order should not be used as an indicator of overall quality or quality rank.

# 43<sup>rd</sup> Annual Southern WV Performance Bull and Heifer Sale

## “The Program”

Since its inception, the Southern WV Bull and Heifer Evaluation Program has been developed with the principal goal of providing profit generating genetics for commercial cattlemen. Current members of the advisory committee are:

Chairmen: Brian Sparks, *Fayette/Nicholas County Extension & Evan Wilson, Mason County Extension*

Jack Crank, *Station Owner/Manager*

JJ Barrett, *Wood County Extension Agent*

Ed Smolder, *Jackson County Extension Agent Ret.*

Jim Poling, *Angus Breeder*

David Richmond, *Raleigh/Summers Co. Extension Agent*

Kevin Shaffer *WV Cattlemen Association*

Chris Brown, *Angus & Simmental Breeder*

Chuck Lipscomb, *Angus & Hereford Breeder*

Mida Peterson, *Angus Breeder*

Izzy King, *Mason County Extension-College Intern*

**Special thanks is given to the following individuals for their significant contributions to the program!!!**

**Yauger’s Farm Supply**

**Kirkpatrick Animal Hospital**

**Springwood Livestock Management Services**

**Toby Leport**

**Toby Leport Jr.**

**Jack Crank**

*Additional thanks is given to our sponsors for making the program available!!!*

### Explanation of Performance Records

Production		<b>15</b>									
<i>Parent EPDs</i>											
		CED	CEM	BW	WW	MM	YW	SC	MARB	REA	
Sire	<b>1</b>										
Dam											

- EPD/ACC:** EPDs and accuracies are presented for the individual, sire, and dam and are current as of 2/28/25. Visit [www.angus.org](http://www.angus.org), [www.hereford.org](http://www.hereford.org) or [www.simmental.org](http://www.simmental.org) for updated EPDs.
- Birth Weight and Ratio:** Actual birth weight reported by consignor. The ratio is a comparison of the birth weight of the calf relative to the other calves in the herd in which he was born. Ratios >100 indicate an above average birth weight in the herd of origin.
- Adjusted Weaning Weight and Ratio:** Calf weaning weight adjusted to 205 days of age. Adjusted WW is easily influenced by management and is of little value by itself; however, WW Ratio is a useful indicator of pre-weaning performance relative to herd mates. Weaning Ratio is calculated within herd of origin, and the average is 100.
- Adjusted Yearling Weight and Ratio:** Body weight adjusted to 365 days of age. Adjusted YW represents

both pre and post-weaning gain. Adjusted YWs and ratios are calculated within herd.

## 43<sup>rd</sup> Annual Southern WV Performance Bull and Heifer Sale

- 5. Initial/Final Weight:** Initial/Final weights are the average of two weights taken on consecutive days at the beginning and end of the feeding period. By taking two weights, measurement error due to gut fill is reduced.
- 6. ADG and Ratio:** Average daily gain during the feeding period. ADG Ratio indicates the growth rate of a bull compared to bulls of the same breed.
- 7. Weight per Day of Age:** Final weight divided by days of age. WDA is easily influenced by pre-weaning management and is of limited value except when comparing bulls from the same herd.
- 8. Frame:** Frame score is an indicator of logical slaughter weights of feedlot cattle and mature size of breeding females. Based upon an age adjusted height measurement, frame scores range from 3-7 with 3 being very small and 7 being very large. Minimum heights for bulls and logical slaughter weights for steer progeny are shown below.

Frame Score	3	4	5	6	7
Hip Height (in.)	45	47	49	51	53
Logical Steer Harvest Weight	951-	1051-	1151-	1251-	1351+

- 9. Scrotal Circumference:** Expressed in centimeters, SC is adjusted to 365 days of age and is positively related to fertility.
- 10. Muscle Score:** All bulls were evaluated by a team of three individuals and scored using the USDA Feeder Cattle Grade Standards. All bulls selling would be classified as USDA #1 muscle; however, bulls scoring higher in the percentile range would be expected to transmit greater muscle expression to their progeny.

- 11. Ribeye Area and Ratio:** Expressed in square inches and adjusted to 365 days of age. Ratios are calculated within herd.

- 12. Ribeye Area per Hundred Weight:** Square inches of ribeye area per hundred pounds of live weight.
- 13. FT:** An adjusted yearling back fat measurement expressed in tenths of an inch.
- 14. IMF and Ratio:** Adjusted yearling intramuscular fat measured by ultrasound, expressed as a percentage, and used an indicator of USDA marbling score. Because testosterone can impact the expression of IMF, steers may express marbling scores up to one degree higher than genetically equivalent bulls. Ratios are calculated within herd.

IMF (%)	Degree of Marbling	Quality Grade
2.3 – 3.0	Slight	0 - 40
3.1 – 3.9	Slight	50 - 90
4.0 – 5.7	Small	0 - 90
5.8 – 7.6	Modest	0 - 90
7.7 – 9.7	Moderate	0 - 90
9.9 – 12.1	Slightly Abundant	0 - 90
12.2 +	Moderately Abundant	0 - 90

- 15. Dam's Record:**  
 AOD—Dam's age when calf was born  
 WWR—Number of calves weaned and average weaning ratio  
 YWR—Number of calves with yearling records and average yearling ratio
- 16. MGT:** Pre-weaning management where NC = No Creep and C = Creep.
- 17. Cont:** Number of contemporaries (calves) in the group in which the bull or heifer was weaned. Larger contemporary groups allow for better comparisons.
- 18. Pedigree Information:** A three generation pedigree.
