

Southern WV

Performance Evaluation Program

41st Annual Sale

March 17, 2023 • 6 PM

Ripley, WV

Jackson County Regional Livestock Market — 3907 Cedar Lakes Dr.

www.southernwvbulltest.com

Fellow Cattlemen,

On behalf of the participating consignors, I am pleased to invite you to the 41st Annual Southern Bull Test Sale. We have an excellent offering of bulls this year to go along with a select group of yearling heifers. Due to extenuating circumstances, we were unable to test heifers this year so some of the usual performance measures will be missing but the quality won't. These heifers were developed at home but still met a strict set of criteria to make it in the sale. As such, the heifers won't be available for viewing until sale day, but the bulls will be available for viewing at the test station until sale day.

Prior to the bull sale, we will be offering some of our previously used sale equipment at auction. This will include an assortment of temporary panels, gates, sliders, etc. These are all in excellent condition. We plan to use the proceeds from this equipment in the development of a scholarship fund so make plans to take home some nice equipment for a good cause.

In conclusion, I would like to thank you for your continued interest in and support of the Southern Bull Test program. Southern is a tremendous resource for performance-based bulls and replacement heifers that will make a positive genetic impact on your herd, and our consignors have continued to improve the quality and value of their genetics. If you have any questions, please do not hesitate to call. I hope to see you March 17th.

Respectfully,

Kevin Shaffer
SBT Coordinator

41st Annual Southern WV Performance Bull and Heifer Sale

March 17th, 2023

Ripley, WV

3907 Cedar Lakes Rd—1 mile off I-77 Exit 132

Selling 50 Bulls and 20 Yearling Heifers

Sale Time: 6:00 PM (*Bulls sell first immediately followed by heifers*)

Auctioneer: *Daniel Mitchell*

Sale Management: Jackson County Regional Livestock Market

Veterinarian: *Dr. Tommy Kirkpatrick, DVM*

Farm Owner/Manager: *Jack Crank* **(304) 675-2776**

Farm Crew: *Toby Leport and Toby Leport Jr.*

Lodging: *Holiday Inn, Ripley, WV* (304) 372-4444
 Super 8, Ripley, WV (740) 372-8880

Sale Day Phones:

<i>JCRLM Office</i>	(304) 373-1269
<i>Roger Mitchell</i>	(740) 260-4289
<i>Daniel Mitchell</i>	(740) 260-4259

41st Annual Southern WV Performance Bull and Heifer Sale

Terms and Conditions

Sale Terms: *Terms of the sale are cash. Personal checks are accepted.* Each lot will be sold to the highest bidder. The auctioneer will settle any dispute as to bids. Announcements from the auction block will take precedence over any printed materials. Risk of injury and/or loss passes to the buyer as soon as each lot is sold.

Health: All bulls and heifers selling have tested negative PI-BVD and are eligible for interstate shipment as required by applicable state and federal regulations.

Genetic Defects: Genetic mutations are a natural component of every animal's genome; however, undesirable genetic mutations have been identified in the breeds of cattle selling. To protect buyers, every animal in this sale identified as a potential carrier (prior to enrollment) of a known genetic defect has been tested free and is guaranteed by the breeder.

Guarantee: All bulls are guaranteed by the seller if properly managed. Bulls will be considered breeders should they settle 1/3 of the healthy cows they are exposed to. Buyers must notify the seller of non-breeders within six months of sale date. Non-breeders in healthy condition (body weight \geq sale weight) may be returned to the seller at the buyer's expense. As full settlement and

satisfaction of all claims, the seller may immediately refund the full purchase price or attempt to prove the bull a breeder for a period not to exceed six months. If the bull is not proven a breeder within the specified time period, the seller will refund the full purchase price. Alternate settlement procedures agreeable to both the buyer and seller may also be used.

Registration: Certificates of registry will be transferred to the buyer at no cost.

Retained Interest Sales: Sellers may retain a revenue sharing semen interest in some bulls selling. The buyer receives full possession and full salvage value. Semen collections will occur at the seller's expense and at the buyer's convenience. Announcements will be made prior to sale.

Miscellaneous: The above terms and conditions of sale shall constitute a contract between the buyer and seller and are equally binding upon both parties. All claims should be directed between the buyer and seller.

Liability: All persons who attend this sale do so at their own risk. Neither the program sponsors, sale manager, host farm, nor any other person connected with the management of this sale or the Southern Bull Test program, assumes any liability, legal or otherwise.

General Information

Condition: Bulls were fed a moderate energy diet; however, rate of gain exceeded dietary expectations. Average back fat thickness was 0.27 0.17 and 0.21 inches for Angus, Simmental and SimAngus bulls, respectively. The bulls are sound and ready to work.

Ration: Bulls were fed ad libitum a total mixed ration. The diet consisted of 60% Corn Silage, 25 % Wheat Silage, 10% High Moisture Shelled Corn, 5% Supplement (Soybean Meal, Dried Distillers Grains, and Ground Lime), and included a commercial vitamin and mineral mix containing selenium. Rumensin® was added at the labeled dosage rate.

Bull Sale Order: All bulls have met and/or exceeded minimum criteria for ADG, SC, YW, IMF, REA, overall muscle expression, structural correctness, and have passed a comprehensive breeding soundness exam. Sale order was determined using an index of economically relevant traits.

$$I = [(ADG \text{ Ratio} + 0.5(YW \text{ Ratio}) + 0.5(SC \text{ Ratio}))/2] + 2[(\# \text{ Weaned}/AOD) + (\# \text{ Yearling}/AOD)]$$

Although the index strives to identify superior bulls, sale order should not be used as an indicator of overall quality or quality rank.

41st Annual Southern WV Performance Bull and Heifer Sale

"The Program"

Since its inception, the Southern WV Bull and Heifer Evaluation Program has been developed with the principal goal of providing profit generating genetics for commercial cattlemen. Current members of the advisory committee are:

Chairman: Dr. Kevin Shaffer, WVU Extension Livestock Specialist

Jack Crank, Station Owner/Manager

Brian Sparks, Fayette/Nicholas County Extension Agent

Ed Smolder, Jackson County Extension Agent Ret.

Jim Poling, Angus Breeder

David Richmond, Raleigh/Summers Co. Extension Agent

Ben Goff, Jackson County Extension Agent

JJ Barrett, Wood County Extension Agent

Chuck Lipscomb, Angus Breeder

Mida Peterson, Angus Breeder

Evan Wilson, Cabell/Wayne Co. Extension Agent

Special thanks is given to the following individuals for their significant contributions to the program!!!

Pt. Pleasant Ag

Toby Leport

Kirkpatrick Animal Hospital

Toby Leport Jr.

Springwood Livestock Management Services

Jack Crank

Additional thanks is given to our sponsors for making the program available!!!

Parent EPDs																		
Sire	CED	CEM	BW	WW	MM	YW	SC	MARB	REA									
Dam	1																	

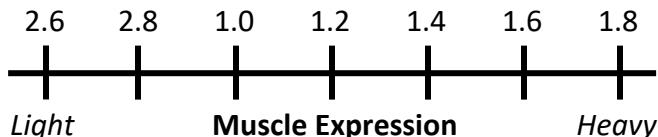

- EPD/ACC:** EPDs and accuracies are presented for the individual, sire, and dam and are current as of 2/20/23. Visit www.angus.org or www.simmental.org for updated EPDs.
- Birth Weight and Ratio:** Actual birth weight reported by consignor. The ratio is a comparison of the birth weight of the calf relative to the other calves in the herd in which he was born. Ratios >100 indicate an above average birth weight in the herd of origin.
- Adjusted Weaning Weight and Ratio:** Calf weaning weight adjusted to 205 days of age. Adjusted WW is easily influenced by management and is of little value by itself; however, WW Ratio is a useful indicator of pre-weaning performance relative to herd mates. Weaning Ratio is calculated within herd of origin, and the average is 100.
- Adjusted Yearling Weight and Ratio:** Body weight adjusted to 365 days of age. Adjusted YW represents both pre and post-weaning gain. Adjusted YWs and ratios are calculated within herd.

41st Annual Southern WV Performance Bull and Heifer Sale

- 5. Initial/Final Weight:** Initial/Final weights are the average of two weights taken on consecutive days at the beginning and end of the feeding period. By taking two weights, measurement error due to gut fill is reduced.
- 6. ADG and Ratio:** Average daily gain during the feeding period. ADG Ratio indicates the growth rate of a bull compared to bulls of the same breed.
- 7. Weight per Day of Age:** Final weight divided by days of age. WDA is easily influenced by pre-weaning management and is of limited value except when comparing bulls from the same herd.
- 8. Frame:** Frame score is an indicator of logical slaughter weights of feedlot cattle and mature size of breeding females. Based upon an age adjusted height measurement, frame scores range from 3-7 with 3 being very small and 7 being very large. Minimum heights for bulls and logical slaughter weights for steer progeny are shown below.

Frame Score	3	4	5	6	7
Hip Height (in.)	45	47	49	51	53
Logical Steer Harvest Weight	951- 1050	1051- 1150	1151- 1250	1251- 1350	1351+ 1450+

- 9. Scrotal Circumference:** Expressed in centimeters, SC is adjusted to 365 days of age and is positively related to fertility.
- 10. Muscle Score:** All bulls were evaluated by a team of three individuals and scored using the USDA Feeder Cattle Grade Standards. All bulls selling would be classified as USDA #1 muscle; however, bulls scoring higher in the percentile range would be expected to transmit greater muscle expression to their progeny.

- 11. Ribeye Area and Ratio:** Expressed in square inches and adjusted to 365 days of age. Ratios are calculated within herd.
- 12. Ribeye Area per Hundred Weight:** Square inches of ribeye area per hundred pounds of live weight.

- 13. FT:** An adjusted yearling back fat measurement expressed in tenths of an inch.
- 14. IMF and Ratio:** Adjusted yearling intramuscular fat measured by ultrasound, expressed as a percentage, and used an indicator of USDA marbling score. Because testosterone can impact the expression of IMF, steers may express marbling scores up to one degree higher than genetically equivalent bulls. Ratios are calculated within herd.

IMF (%)	Degree of Marbling	Quality Grade
2.3 – 3.0	Slight	0 - 40 Select -
3.1 – 3.9	Slight	50 - 90 Select +
4.0 – 5.7	Small	0 - 90 Choice -
5.8 – 7.6	Modest	0 - 90 Avg. Choice
7.7 – 9.7	Moderate	0 - 90 Choice +
9.9 – 12.1	Slightly Abundant	0 - 90 Prime -
12.2 +	Moderately Abundant	0 - 90 Avg. Prime

- 15. Dam's Record:**
 AOD—Dam's age when calf was born
 WWR—Number of calves weaned and average weaning ratio
 YWR—Number of calves with yearling records and average yearling ratio
- 16. MGT:** Pre-weaning management where NC = No Creep and C = Creep.
- 17. Cont:** Number of contemporaries (calves) in the group in which the bull or heifer was weaned. Larger contemporary groups allow for better comparisons.
- 18. Pedigree Information:** A three generation pedigree.

Bull Test

Open Yearling Heifers

Due to extenuating circumstances we were unable to test heifers this year; however, we still wanted to provide you with the opportunity to purchase quality replacements, so we developed a set of criteria as close to our test criteria as possible for heifers developed by our consignors at home. The heifers on the following pages are a select set that met those criteria. Additionally, all heifers offered will be checked by a veterinarian day of sale and evaluated by a team of WVDA graders for muscle, soundness, disposition, etc. A supplement sheet with muscle and frame scores will be available sale day.

Heifer sale order will be determined day of sale and available when you register for a buyer's number. As usual, heifers will sell following bulls.

We plan to be back to full capacity and testing heifers for next year's sale!!!
